Nancy:

If the typical times listed below are of concern, we can talk with SAB staff concerning other options. However, my suggestion is that we want the SAB to fully run the peer review and that we don't want to change their typical practice and timelines.

That said, I suspect that we will want a 60-day public comment period on the draft science report. My understanding is that the SAB typically uses a 30-day public comment period.

Jeff
